### Darwin at a Glance

Darwin’s evolution as an insurance carrier is predicated on the notion that almost everything in the specialty liability insurance segment can be done better. We are constantly evolving the specialty insurance model to identify and take advantage of coverage, price, and service gaps. It’s survival of the fittest. So Darwin is nimbler, more responsive, and tightly focused. We’re highly selective in the products we offer, the partners we team with, and the risks we cover. For our clients, Darwin offers a more evolved product line, helping them adapt to change and assuring that they don’t just survive—they thrive.
